Bolts

## Straps

## Cable Trays

All types of pipe support for fire distinguishing, central air conditioning, sanitary, and electricity systems and efficient cable management with a diverse range of steel cable trays ranging from solid to perforated.

Al Nour is proud to be one of the first companies in Egypt to get international and local certifications in this field, including:

1. The American ISO certificate
2. The American UL certificate
3. The American FM Certificate
4. Certificates from Ain Shams University

# HDPE FITTINGS

## Injection Fitting

## Segmented Fitting

## Electrofusion

## Flanges

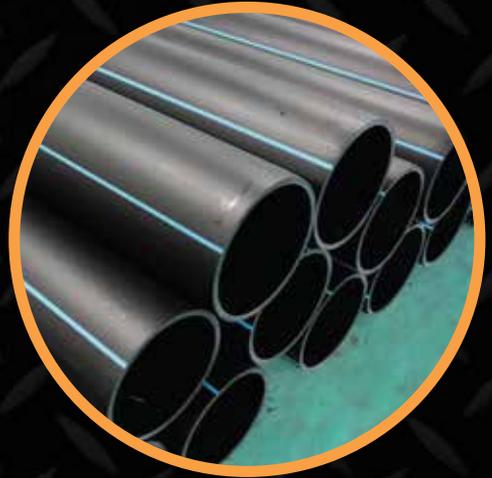

Exclusive partnership with Yildiz Polietilen, a leading manufacturer of polyethylene parts. Yildiz Polietilen offers a comprehensive range of these fittings, including injection, segmented, electrofusion and pipe flanges.

# HDPE PIPING

---

## HDPE Pipes/ Polyethylene

Al Nour offers HDPE pipes to provide a more comprehensive solution for their customers. These pipes are made from high-density polyethylene, a strong and versatile plastic material.

HDPE pipes are commonly used for a variety of applications due to their durability, resistance to corrosion, and ability to handle high pressure.

They are popular choices for potable water distribution, gas distribution, sewer lines, irrigation systems, and even electrical conduit.
